DETAILED ACTION

Information Disclosure Statement

1. Receipt of the Information Disclosure Statement filed by the applicant on September 07, 2004 is acknowledged and has been considered by the examiner. A signed and initialed copy of the PTO-1449 is included with this office action.

EXAMINER'S AMENDMENT

The Examiner's amendment was done to correct a minor omission in claim 1. This correction was made on the basis of a similar presentation found in claim 21.

The application has been amended as follows:

a. In claim 1:

On line 15, insert --on-- between "based" and "the".

Allowable Subject Matter

3. Claims 1-32 are allowable.

4. Claims 1 and 21 are allowable because the prior art of record, taken alone or in combination, fails to disclose or render obvious an apparatus or method for evaluating the characteristics of a sample comprising an intensity modulated pump beam directed to a first spot on the surface of said sample, a probe laser directed to a second spot on the surface of said sample, a tracker module for adjusting a lateral displacement of the first and the second spots on

the surface of the sample, a fixed beam combiner for combining the pump beam and the probe beam, a common objective lens for focusing the pump and probe beams to the respective first and second spots on the sample and, a processor that evaluates the characteristics of said sample based on the first output signals obtained for at least two different lateral displacements of the first and second spots, in combination with the rest of the limitations of the respective claims.

5. Claims 2-20 and 22-32 are allowable because they are dependent on independent claims 1 and 21 respectively, or an intermediate claim.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
